Hudson Center for Health Equity and Quality, Inc.
Notes to Financial Statements

Note 1. Organization

Hudson Center for Health Equity and Quality, Inc. (THE HUDSON CENTER or the Organization) is incorporated as a not-for-profit corporation in the State of New York for the purpose of developing technologies and promoting policies that result in equitable healthcare.

The Organization's policy is to prepare its financial statements on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Note 2. Summary of Significant Accounting Policies

Basis of Presentation: The Organization follows the guidance of the provisions for accounting for not-for-profit organizations. Under this guidance, the Organization is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted, temporarily restricted and permanently restricted. Accordingly, net assets of the Organization and changes therein are classified and reported as follows:

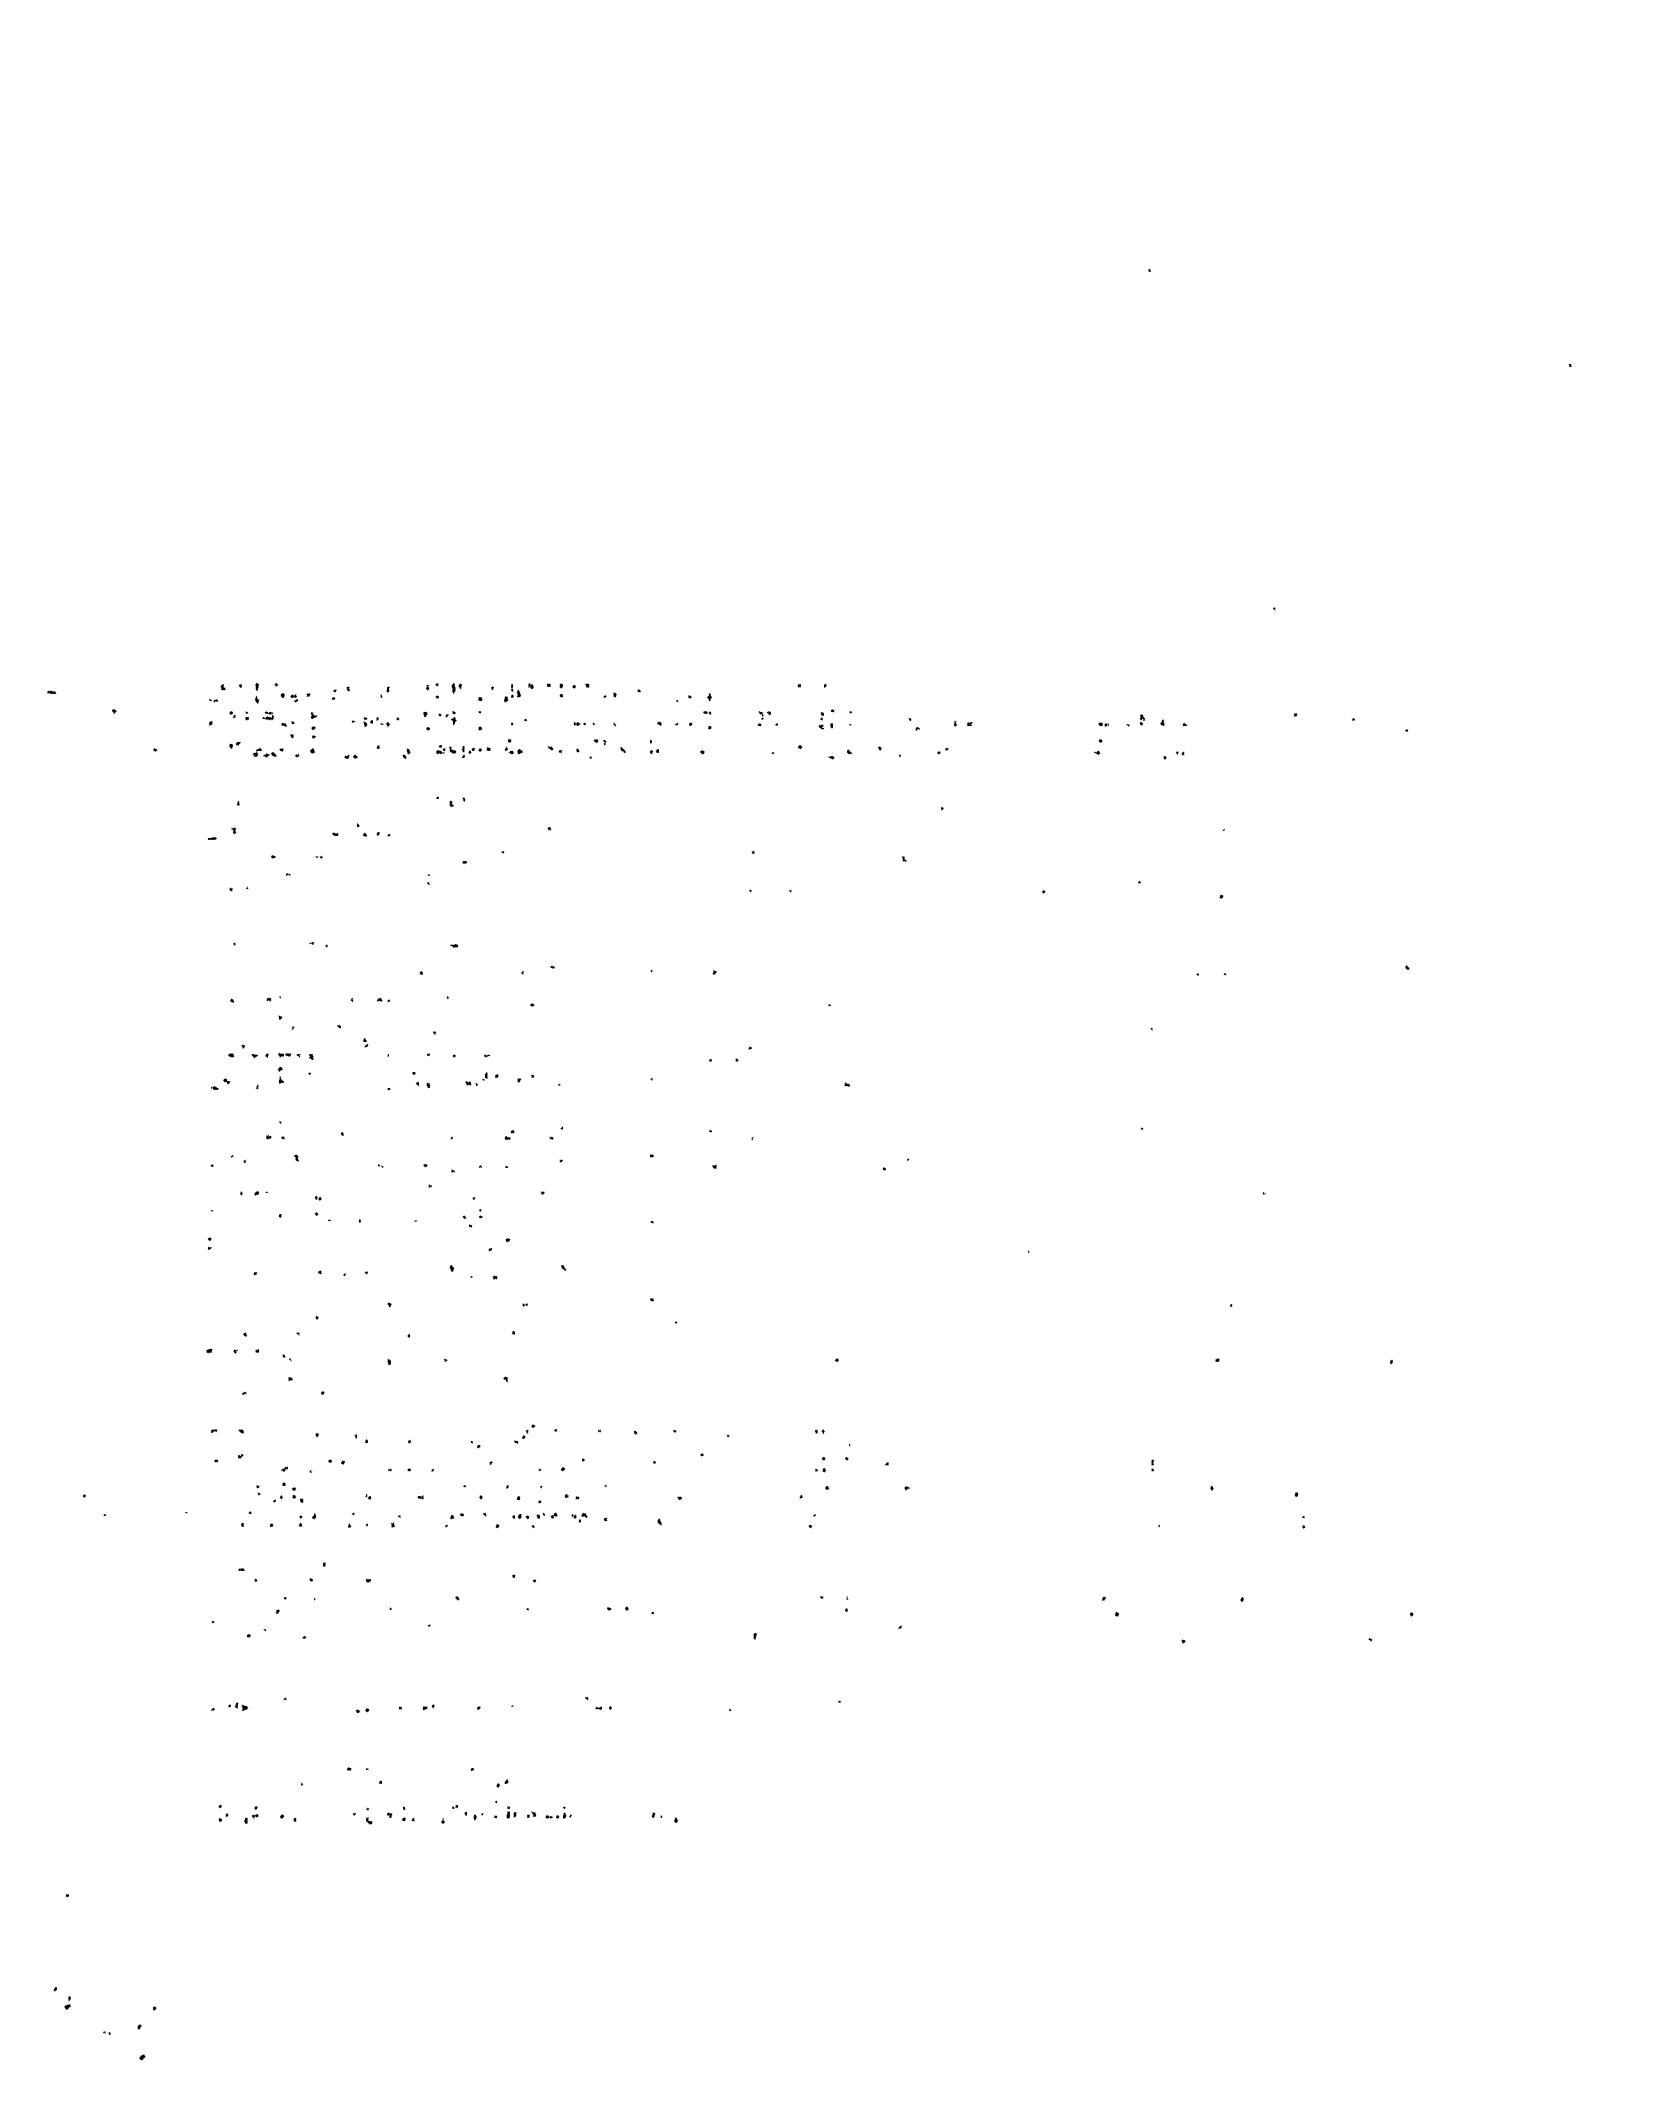
Unrestricted net assets – Net assets that are not subject to donor-imposed stipulations, and are associated with the principal operating activities of the Organization. As of December 31, 2015 and 2014, unrestricted net assets are comprised of the Technology and Health Home Programs. The Technology Program accounts for all resources obtained by the Organization related to the development of health care information technology that allows those in the health care industry to identify, enroll, and support those eligible for Medicaid and other federal and state-subsidized health care programs. The Health Home Program accounts for all resources obtained by the Organizations related to its acting as a Management Service Organization on behalf of Health Home organizations.

Temporarily restricted net assets – Net assets that are subjected to donor-imposed stipulations that may or will be met either by actions of the Organization and/or the passage of time. When a donor restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and are reported in the statements of activities and changes in net assets as assets released from restriction. As of December 31, 2015 and 2014, temporarily restricted net assets is comprised of the Intact America Program, whose purpose is to protect babies and children from circumcision and all other forms of medically unnecessary genital alteration, whether carried out for cultural conformity or profit, in medical or non-medical settings.

Permanently restricted net assets – Net assets that are subject to donor-imposed stipulations that must be maintained permanently by the Organization. There were no permanently restricted net assets as of December 31, 2015 and 2014.

Results of Operations: The statements of activities and changes in net assets include operating income and loss that represent the results of operations, changes in unrestricted net assets which are excluded from operating income (loss), consistent with industry practice, and contributions of long-lived assets (including assets acquired using donor-restricted contributions that were to be used for the purpose of acquiring such assets).

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.



Note 2. Summary of Significant Accounting Policies (Continued)

Cash: The Hudson Center for Health Equity and Quality, Inc. maintains its cash on deposit with a financial institution in the United States of America which at times, may exceed federally insured limits. However, The Hudson Center has not experienced losses on deposited cash.

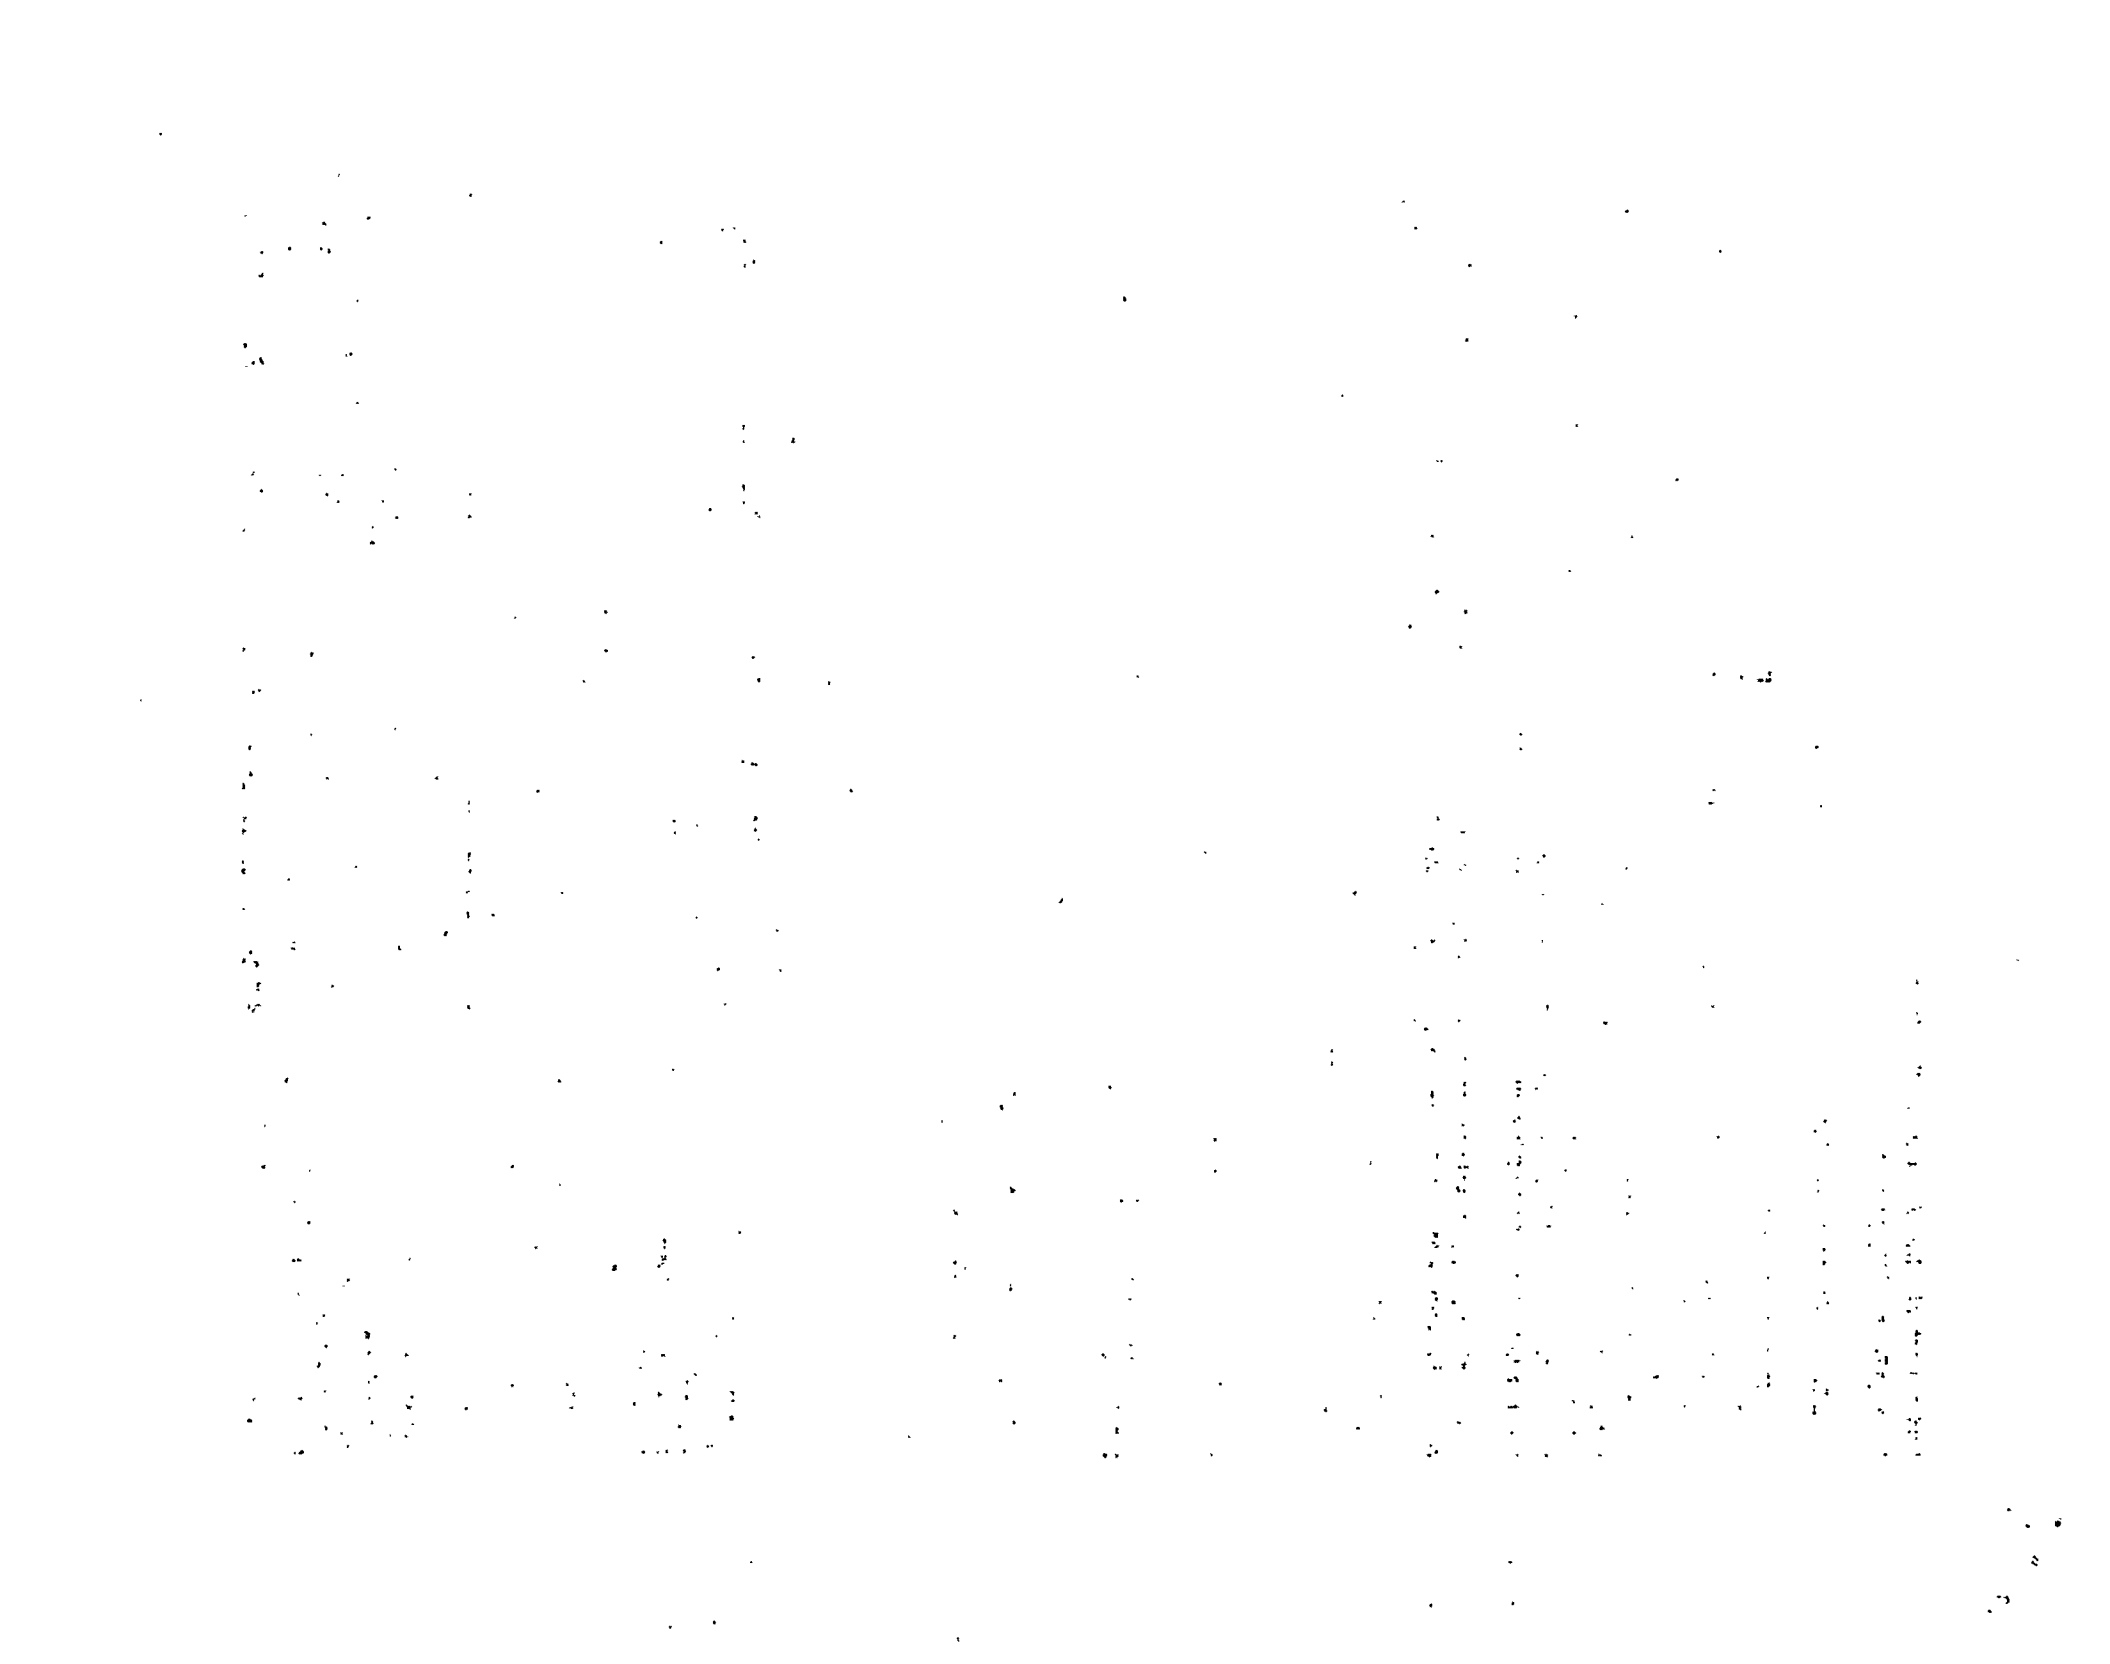
Equipment: Equipment is recorded at cost or, if donated, at fair value at the date of donation. Depreciation is recorded on a straight-line basis over the estimated useful lives of the assets ranging from 3 to 5 years. The Organization capitalizes all purchases of equipment in excess of $1,000. Repairs and maintenance are charged to expense as incurred. Major replacements and improvements are capitalized.

Software Development Costs: Beginning in 2009, the Organization began developing different software tools to be used by the healthcare industry to streamline administrative and clinical practices in order to aid in the accessibility and quality of health care for all people. The Organization capitalizes internally developed software costs of software to be sold, leased, or otherwise marketed. Capitalization of development costs of software products begins once the technological feasibility of the product is established. Capitalization ceases when such software is ready for general release, at which time amortization of the capitalized costs begins. Amortization of capitalized internally developed software costs is computed using the straight-line method of accounting over the product's estimated useful life, generally 3 to 5 years. Research and development costs relating principally to the design and development of products are expensed as incurred. The cost of developing and routine enhancements is expensed as research and development costs as incurred because the enhancements do not add significant life to the product.

Contributions: Contributions are recorded at fair value when received or pledged. Amounts are recorded as temporarily or permanently restricted revenue if they have donor stipulations that limit the use of the donated asset. Bequests are recognized when the probate court declares the will valid. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted assets are reclassified as unrestricted net assets and reported in the statement of activities and changes in net assets as net assets released from restrictions.

Revenue Recognition: Sales and license fee revenues are reported at the estimated net realizable amounts for services rendered. Revenues are recorded as deferred revenue until services are provided and revenue is earned. Development and service fees and administrative billings to health homes are recognized as revenue as the services are provided or rendered.

Tax Status: The Organization was incorporated as a not-for-profit corporation under the laws of the State of New York and is exempt from income taxes under Section 501(c) (3) of the Internal Revenue Code (the IRC). In addition, The Hudson Center is not classified as a private foundation.



Note 2. Summary of Significant Accounting Policies (Continued)

The Organization has adopted accounting guidance related to the accounting for uncertainty in income taxes. The Organization files a Form 990 (Return of Organization Exempt from Income Taxes). When the return is filed, it is highly certain that some positions taken would be sustained upon examination by the taxing authorities, while others are subject to uncertainty about the merits of the position taken or the amount of the position that would ultimately be sustained. Examples of tax positions common to health centers include such matters as the following: tax-exempt status of the entity, the nature, characterization and taxability of joint venture income and various positions relative to potential sources of unrelated business taxable income (UBIT). UBIT is reported on Internal Revenue Service Form 990-T, as appropriate. The benefit of a tax position is recognized in the financial statements in the period during which, based on available evidence, management believes it is more likely than not the tax position will be sustained upon examination, including the resolution of appeals or litigation processes, if any.

Tax positions are not offset or aggregated with other positions. Tax positions that meet the more-likely-than-not recognition threshold are measured as the largest amount of tax benefit that is more than 50% likely to be realized on settlement with the applicable taxing authority. The portion of the benefits associated with the tax positions taken that exceeds the amount measured as described above is reflected as a liability for unrecognized tax benefits in the balance sheets along with any associated interest and penalties that would be payable to the taxing authorities upon examination. As of December 31, 2015 and 2014, there were no unrecognized tax benefits identified or recorded as liabilities.

The Organization files income tax returns in the U.S. federal jurisdiction and in the State of New York. With few exceptions, the Organization is no longer subject to U.S. federal or state income tax examinations by tax authorities for years before December 31, 2010.

Subsequent Events: The Organization has evaluated subsequent events through June 30, 2016, which is the date the financial statements were available to be issued.
